

Product Code . JL-MS-7262

Pre Assembled Calcium Fluoride Model

Description

Pre assembled Calcium Fluoride Model

Molecular models help the teacher convey a concrete representation of the molecular world.

The joining pieces are carefully designed to ensure models are firmly constructed so they can be passed around during the lesson without fear of falling apart

The brilliance of the Molymod range is its ease of use and accurate representation in an easily understood way.

They can be used by students at all levels, to represent simple substances right through to more complex structures like Buckminster fullerene and ionic lattices.

Excellent quality models produced from precision engineered moulds and materials.

Each kit comes in a durable storage case with compartments for segregation of parts.

The range of models included in the JLab range is designed to enhance teaching of the UK and US curricula.

These 'original' models have been used by thousands of students worldwide and are renowned for their ease of use.

Pre assembled Calcium Fluoride Model Manufacturer India, Pre assembled Calcium Fluoride Model Exporters, Pre assembled Calcium Fluoride Model, Buy Pre assembled Calcium Fluoride Model Online India, Pre assembled Calcium Fluoride Model Suppliers, Didactic, Didactic Pre assembled Calcium Fluoride Model, Educational Equipment.
