## Pre Assembled, Iron, Zinc, And Copper Models

### Description

---

#### Pre Assembled, Iron, Zinc, And Copper Models

The range of models included in the range is designed to enhance teaching of the UK and US curricula.

They can be used by students at all levels, to represent simple substances right through to more complex structures like Buckminsterfullerene and ionic lattices.

These 'original' models have been used by thousands of students worldwide and are renowned for their ease of use.

Molecular models help the teacher convey a concrete representation of the molecular world.

The joining pieces are carefully designed to ensure models are firmly constructed so they can be passed around during the lesson without fear of falling apart.
