## Ores of Common Metals Collection

### Description

---

#### Ores of Common Metals Collection

Ore is a rock containing economically valuable mineral elements or compounds that are typically extracted in mining and refining operations.

Set of 15 common metal ore specimens for studying rock and mineral properties in classroom demonstrations and experiments.

Comes with a segmented tray for organizing and displaying the specimens.

Includes bauxite, chalcopyrite, malachite, chrysocolla, pyrite, hematite, magnetite, limonite, the banded iron formation of silica and hematite, siderite, dolomite, pyrolusite, cassiterite, sphalerite, and beryl.

**Ores of Common Metals Collection India, Ores of Common Metals Collection Manufacturer, Biology Lab Equipments, Geology Equipment, Geology Equipment Ores of Common Metals Collection, Ores of Common Metals Collection Suppliers, Ores of Common Metals Collection Export, Biology Equipments, Biology Equipments Ores of Common Metals Collection, Ores of Common Metals Collection Online, buy Ores of Common Metals Collection, Ores of Common Metals Collection Manufacturer, buy Ores of Common Metals Collection Online India.**

Contact JLab Export for your Educational School Science Lab Equipments. We are best school lab equipment supplier, school lab equipments, school lab equipments export, school lab equipments exporter, school lab equipments manufacturers, school lab equipments manufacturers in india.
