## **Rheostat 125 OHM**

### **Description**

---

Rheostat 125 OHM

A high quality rheostat offering excellent value for money.

The heavy duty sliding contact is nickel plated for corrosion resistance.

4 mm terminal posts are fitted, facilitating external connection with a conventional 4 mm plug.

Wound with heavily oxidized resistance wire on a vitreous enamel steel tube with the winding, which is supported on robust die cast end stands.
