Rheostat 1325 ohm

Description

Rheostat 1325 ohm

A high quality rheostat offering excellent value for money.

Resistance 1325 Ohms, Max. Current 0.5 Amp.

The heavy duty sliding contact is nickel plated for corrosion resistance.

4 mm terminal posts are fitted, facilitating external connection with a conventional 4 mm plug.

Wound with heavily oxidized resistance wire on a vitreous enamel steel tube with the winding, which is supported on robust die cast end stands
