Demount able Transformer Kit

Description

Demount able Transformer Kit

Laminated low-loss core for attaching different coils to demonstrate the step up and step down transformer principle.

The core is made up of highly permeable U-shaped metal sheeting, which can be closed via two clamps with tightening screws.

Attractive demount able transformer with clearly labelled coils for GCSE physics and science and A-Level physics demonstrations.

The principles used show how transformers are used in domestic electrical appliances and in the National Grid for power transmission.
