Malvern Energy Transfer Lamp

Description

Malvern Energy Transfer Lamp

For use in conjunction with the Malvern Mounted Motor for Solar Cell.

Consists of a 12 V, 24 W S.B.C. bulb in a metal socket, mounted on a base with two 4 mm sockets.

All units have a base measurement of 165 x 100 mm and have 4 mm socket terminals where appropriate.

The Malvern Energy Transfer Kit consists of a number of separately available units which enable the user to show conversions of one form of energy to another in a variety of different ways.
