Mounted Solar Cell

Description

Mounted Solar Cell

The apparatus comprises a selenium photo-voltaic cell.

All units have a base measurement of 165 x 100 mm and have 4 mm socket terminals where appropriate.

For use with the motor to demonstrate the production of electrical energy directly from light energy.

The Malvern Energy Transfer Kit consists of a number of separately available units which enable the user to show conversions of one form of energy to another in a variety of different ways.
