## Student Digital Joulemeter

### Description

---

Student Digital Joulemeter

Specification:

Maximum load current: 10A AC/DC.

Input voltage: 0V to 15V AC, or 0V to 21V DC (maximum).

A built-in timing function, the start button starts timer and joulemeter together and at the same time starts powering up the load.

Circuitry: Microprocessor, combined with a precision voltage multiplier.

Display: 2 x 16 character LCD.

The stop button stops the timer and joulemeter and disconnects the input power from the load.

Dimensions: 90 x 90 x 33mm.
