

Description

Micro Voltmeter

Specification:-

Measurement: 9 ranges, from 100V to 3V

Input impedance: 10MO per volt, maximum 30MO

socket for negative input Power: PP3 9V battery

Input: 4mm socket or UHF socket, complemented by a 4mm

Height including handle is 187mm.

Dimensions:- 208 x 155 x 115mm (W x H x D).
