

## Description

---

Variable Power Supply 0-25V

### Specifications:-

Output Voltage continuously variable by rotary knob from 0 to 25V.

Heavy-duty 40A Schottky barrier diodes employed for rectification, together with the high-performance toroidal transformer, reduce the Thermal fuse protection transformer.

the weight of the power supply and power waste.

Thus eliminating the need for a noisy and troublesome cooling fan.

Continuously rated combined current of 8.5A, AC or DC.

Digital display for voltage for AC or DC, selected by a toggle switch.

Fully protected secondary by high speed, resettable microprocessor-controlled trip.

Slow-blow fuse-protection for the primary.

**Weight:-** 5.5kg.

**Dimensions:-** 300 x 115 x 155mm (W x D x H).
