## Color Wheel Kit JLab

### Description

---

#### Color Wheel Kit

- A very effective demonstration that white is composed of 7 colors of the spectrum.
  - Consists of a 9 inch dia. wheel with four quadrants of the seven colors of the spectrum in wedges of violet, indigo, blue, green, yellow, orange and red.
  - When the wheel is set in motion they blend together giving a simulation of white light.
  - A black plastic handle attaches to the center of the wheel on the back side, which already has a mounted pulley, which can be spun with an included cord.
  - Kit included, the color wheel, handle and cord on spool.
  - A preview of the included instructions can be found at the bottom of this listing.
  - Measurements are approximate.
-
