Plastic Stereo Microscope 20x and 40x Magnification

Description

Plastic Stereo Microscope 20x and 40x Magnification

Description:-

This entry level stereo microscope includes a pair of interchangeable eyepieces: WF 10X and WF 20X.

This stereo microscope delivers a 3 dimensional, un-reversed image with great resolution, brightness, and clarity.

It also includes an upright binocular head and interpupillary adjustment of 55-75mm.

With a long working distance of 2 3/4"(70mm).

The white stage plate provides sharper contrast and ensures optimal viewing.

It is easy for the observer to manipulate the specimen on the stage.
