

Product Code . JL-SI-8040

Portable Wheatstone Bridge with Loop Test

Description

Portable Wheatstone Bridge with Loop Test

The bridge is also suitable for resistance measurements.

Rest of the features like series arm, battery, galvanometer, push buttons are same as.

For Murray loop tests, 3 additional multiplying factors of 10M, 100M and 1000M are provided.

Special switching arrangement has been provided to carry out conductance tests, Varley loop test and Murray loop test.

This bridge is exactly same as except for additional facility of Murray and Varley loop test for location of faults in cables.

For resistance measurements and varley loop test, there are 7 multiplying factors of $\times 1000$, $\times 100$, $\times 10$, $\times 1$, $\times 0.1$, $\times 0.01$ and 0.001 .

Contact JLab Export for your Educational School Science Lab Equipments. We are best school lab equipment supplier, school lab equipments, school lab equipments export, school lab equipments exporter, school lab equipments manufacturers, school lab equipments manufacturers in india.
