Lucite Light Rod JLab

Description

Lucite Light Rod

- This is a two-foot length of acrylic rod that has been bent into the curlicue form shown.
 - It is used to demonstrate the “piping” or “bending” of light by total internal reflection in a clear plastic rod.
 - Both ends of the rod have been cut square, sanded and polished.
 - Almost any light source, including an ordinary flashlight, may be used.
 - **Length:**
 - 24 Inch(Straight)
 - A preview of the included instructions can be found at the bottom of this listing.
 - Measurements are approximate.
-
