## Mini Centrifuge

### Description

#### Mini Centrifuge

##### Description:-

The mini centrifuge is a personal centrifuge that virtually fits in the palm of your hand.

Simply close the lid and the rotor instantly reaches 6,000 rpm.

When the rotor is not in use, storage in this compartment prevents loss or misplacement of the rotor.

Open the lid, and the rotor quickly decelerates to a stop for removing samples.

An increased capacity, eight-position microtube rotor is included and comes installed.

Ideal for quick spin downs of microtubes and PCR tubes, the JLab is extremely easy to use.

Also included is a second rotor for 0.2ml PCR tubes and strips which is stored (together with the rotor removal key) in a convenient compartment on the bottom of the centrifuge.

##### Specification:-

Speed:	6,000 rpm / 2,000 xg
Capacity:	8 x 1.5/2.0ml tubes
	32 x 0.2ml tubes

	4 x PCR Strips
Dimensions:(w x d x h)	4.5 x 5.9 x 4.5 in./11.4 x 15 x 11.4 cm
Weight:	2.2lbs / 1 kg
Electrical:	Universal Voltage
	100-240V, 50-60 Hz, 250W
