## Lobule and Alveolus

### Description

---

Lobule and Alveolus

#### **Description:-**

This dual model features a 150X enlarged lung lobule and additionally a 1,000X enlarged alveolus.

The alveolus model shows detailed representations of the capillary to pulmonary venules, pulmonary arteriole to capillaries, smooth muscle, elastic fibers, and epithelial cover.

Each model is mounted on a stand with base and made exclusively from high-quality medical PVC.

The lung lobule features representations of the pulmonary arteries & veins, as well as bronchial branches.
