

Product Code . JL-WWM-8677

Portable Planer

Description

Portable Planer

Description:-

Features powerful 6.5 Amp motor with 16,500 RPM no-load speed for fast stock removal and a smooth finish.

Versatile 2-blade system.

Ratcheting depth knob- allows fool-proof setting of depth increments from 0 to 3/32" (2.6 mm) within one revolution, so there is no need to re-zero the depth.

Chip ejection control allows shavings to be directed left or right.

Bevel guide fence ensures consistent planing from 0° to 45° through the entire workpiece and has a protective shield covers the section of blade not in use.

Spring-loaded park rest stand protects blade and workpiece and its special shape allows easy start-up in middle of the workpiece.

Ambidextrous lock-off release button helps avoid accidental starts.

Can be converted for use with large high-speed steel blades.
