## Compressor Analyzer

### Description

---

#### Compressor Analyzer

##### Description:-

Compressor Analyzer tests all single phase compressors up to 5 HP, 110, 220, or 277 volts.

JLab comes equipped with a built-in 200 micro farad start capacitor.

Designed for testing motor windings and jump-starting compressors that are locked up.

##### Feature:-

Tied-up compressors may be freed by reversing motor rotations

Tests windings for opens, continuity, and grounds

Tests start and run capacitors and system relays by substitution

Measures running amps, 0-10, 50A range

Measures start and run volts, 0-150, 600V AC ranges

Compressors are tested in the manner in which they were designed to operate: Split-phase, capacitor start, or PSC.

---

Has provisions for connecting external run capacitor.

30A breaker protected to allow high starting current with adequate overload protection.

Complete with 220V adapter cord and capacitor leads.
