

Product Code . JL-MMTM-8965

Manual Metal Arc Welding Machine

Description

Manual Metal Arc Welding Machine

Description:-

We hold specialization in offering MMA Welding Machines to the clients.

Our machines are acknowledged for their attributes such as compact design, portability, high effectiveness and low power consumption.

These machines are manufactured by our experts using latest Mosfet inverter technology.

Available in several specifications, these machines are appropriate for places that are suffering from power crunch.

Features:-

Resistant to voltage fluctuation and stable welding current.

Anti-stick, thermostatic control, fan cooled, carrying strap and handle.

Hot start, arc force, and overload protection.

Available with strong compensation capability.

The complete package includes electrode holder, earth clamp, face mask, welding brush and carton box.

Specification:-

Rated voltage: 230V

Input capacity: 3.4kW

Current arrange: 20 to 120A

Rated duty cycle: 60%

Fuse: 20A

Frequency: 50/60Hz

No-load voltage: 68V

Case protection degree: IP21

Arc-starting: 0.93 cos

Efficiency: 80%

Class of insulation: H

Applied welding rod: 1.6 to 3.2 mm

Weight: 5.5 kg

External size: 36 x 23.5 x 30.5 cm

These machines are used for welding following ferrous metals:-

Low carbon steel

Medium carbon steel

Alloy steel

Contact JLab Export for your Educational School Science Lab Equipments. We are best school

science lab equipments suppliers in india, school science lab instruments, school science lab instruments exporter, school science lab instruments manufacturer, school scientific equipments, science educational equipment.
