

Product Code . JL-TT-9007

Computerized Embroidery Machine

Description

Computerized Embroidery Machine

Description:-

We are engaged in catering to the variegated requirements of the customers by bringing forth a comprehensive range of Computerized Embroidery Machine.

These embroidery machines are widely demanded by textile industries and manufactured under the able guidance of our experts.

In addition to this, our products are tested on various parameters by our quality controllers.

Feature:-

Our computerized embroidery machine can do flat embroidery, taping embroidery and other kinds of embroidery in one design.

The speed of each kind of embroidery machine can be set separately.

It also has latest pantograph drive system which can guarantee big design embroidery.

It saves time for changing material and increases the productivity.
