

Product Code . JL-CTM-9040

Smart Mill 500

Description

Smart Mill 500

Description:-

It is a rigid & steady design in its class with high levels accuracy to achieve quality milling components.

It is a Total Productivity Maintenance friendly designed Vertical Machining Center.

The machine concept of the Smart mill series convinces by compact design, High rigidity through box structured base & column design with the highest quality.

JLab brings to you the smart mill series of VMCs with features such as 8,000 rpm spindle with CTS, tool magazine 20 tools with double gripper ATC, side chip conveyor with built in the coolant system, high rapid traverses and high-tech controls.

Various options make this model a flexible means of production.

Sustained quality performance due to high rigidity, and thermal stability.

Operator's comfort due to environment-friendly working.

Machine Standard Accessories:-

Coolant tank, pump with chip tray

Work light

Pilot light

Screw type chip conveyor

Leveling bolts & pads

Rigid Tapping

Operating Manual

Programmable Manual

Optional Accessories:-

Spindle through coolant

4th axis CNC rotary table

Spindle speed 10000 rpm

Spindle motor 7/9 Kw

Voltage stabilizer / Isolation Transformer

Tooling/fixtures as per customer need

Contact JLab Export for your Educational School Science Lab Equipments. We are best scientific lab equipments manufacturers, scientific laboratory equipments manufacturer, technical educational equipment manufacturer, technical lab equipments manufacturers, tvet lab equipment manufacturers, vocational training lab equipments exporter.
