

Product Code . JL-CLE-9047

Resistance Welding Machine

Description

Resistance Welding Machine

Supply:-

415 $\pm$ 10% V; Phase ϕ 2; Frequency 50 Hz; KVA 60;

Clamping:-

pneumatic type; Secondary current 12000 A;

Transformer & Electrode type:-

water cooled;

Current Control:-

Thyristor Cont.;

Harden steel and M.S butt join are possible
