## Magdeburg Hemispheres Plastic

### Description

---

#### Magdeburg Hemispheres Plastic

- Large Size, strong plastic construction 5.125 inch (130mm) dia. Metal gas valve.
  - Silicon rubber gasket, which does not need lubrication to work.
  - The ends have strong nylon rope with handles for pulling.
  - The two halves are also connected by a piece of rope, so that they do not fall down accidentally.
  - Measurements are approximate.
-
