## Corollis Component of Acceleration

### Description

---

#### Corollis Component Of Acceleration

Corioli's components of Acceleration can be determined at various speeds of rotation at water flow rates.

#### Parts/Component Details:-

Rotameter 300 to 3000 LPH.

Main Tank Fabricated out of fiberglass plastic sheet.

Electrical Motor D C. Swinging field, 0.5 H.P. 50 RPM.

Rotating Arms 9 mm/ 6 mm orifice diameter, 300 mm long.

Mono-block Pump Single phase, pump with Motor 2400 LPM discharge.

#### Control Unit consisting of:-

Speed Control,

---

Speed Indicator ,

Main Switch.

Rigid Support Structures.
