

**Product Code . JL-MWLE-9250**

## Fore Plane

### Description

---

Fore Plane

Fore Plane is designed to further true the surface after the Jack has sized it.

Its length enables it to skim off high spots as it bridges low spots, delivering a leveled surface ready for the smoothing plane.

### Features:-

18" long.

Iron body only, 7-1/2 lbs.

Blade is 2-3/8" wide x .140" thick.
