Proving Rings

Description

Proving Rings

Separate Pair of Loading Pads are provided to suit each proving ring.

The dial gauge and anvil are mounted on U-brackets clamped to the ring body by set screws.

NPL (India) / NCCBM Calibration Certificates can also be arranged for any proving ring at an additional cost.

The indicator has a sensitivity of 0.002 mm/ div and the deflection is directly proportional to the applied load.

The rings are supplied complete with dial gauge and Works Calibration Chart, individually packed in polished wooden boxes.

The Proving Rings are made of special steel, carefully forged to provide high and stable accuracy, dependability and repeat ability.

Available Capacity:-

1 KN - 100 KN

1 KN - 2000 KN
