

Product Code . JL-CACTE-9467

Tensile Strength Tester

Description

Tensile Strength Tester

Maximum loading capacity 5 kN.

Automatic Loading system using Lead Shot.

Lead shot 15 kg supplied with the machine.

One standard Briquette Mould with Base Plate also Supplied.

A loading Machine, double lever type, with steel scale marked from 0-500 Newtons in 10 Newton division.

Set of weights for weighing lead shot comprising one each for weighing up to 0.5 kN, 1 kN, 1.5 kN & 2.0 kN.
