## Glass Marking Pencil

### Description

---

#### Glass Marking Pencil

This pencil will leave markings on all types of shiny surfaces including: glazed pottery, glass, plastic, clear vinyl, metal and rubber.

Markings can be easily rubbed away from non-porous surfaces, but it is difficult to remove from textured weaves like Sunbrella fabric.

This Yellow Grease Marking Pencil is ideal for use on Dura Skrim patterning material, vinyl fabric and clear vinyl (window material).

This marking pencil can be sharpened with any pencil sharpener.
