## Tri-Stir Beaker

### Description

---

#### Tri-Stir Beaker

Unique beakers offer a flat bottom surface which accepts and keeps stir bars centered.

Easy-to-read, molded-in graduations in ml and ounces offer an accuracy of 5%.

The beakers are stackable with stable, flat 360° molded-in ring base.

**Features:-** v-notched corners for easy pouring and less spillage.

Beakers are made from translucent polypropylene and are resistant to heat (autoclave at 145° C) and many acids and bases.

Includes five each of 50 ml, 100 ml, 250 ml, 400 ml, 800 ml and 1000 ml.
