Burette Kit

Description

Burette Kit

Capacity:- 25ml, 50ml,100ml,200ml.

The noncorrosive, molded retort stand provides an excellent replacement for metal ones.

Even the metallic rod has a polypropylene cover to make it noncorrosive.

The rod can be threaded into the heavy base, giving way to a perfectly stable retort stand.

The white finish double burette clamp is made of die-cast aluminum and painted white.

Black rubber sleeves allow for firm gripping of burettes.

The clamps are adjustable and hold two burettes from micro to 100 ml sizes.

Thumb-style screw key attaches easily to support rods.

Kit includes two Class A burettes, PTFE stopcocks, a 2 mm stopcock bore plug, a burette retort stand and a double burette clamp with white finish.
