## Universal Smartphone Optics Adapter

### Description

---

Universal Smartphone Optics Adapter

Self-centering adapter fits any eyepiece measuring 25-58 mm, making it ideal for use with telescopes, binoculars, microscopes, spotting scopes and more.

Take pictures, capture video, or use as a digital viewfinder when attached to optical device.

Glow-in-the-dark rubber makes it easy to use and set up in low-light conditions.

Squeeze-and-release connection makes it simple to attach and detach from the optical device.

Includes protective case.
