Osmosis and Diffusion Lab

Description

Osmosis and Diffusion Lab

This lab allows students to learn about two forms of passive transport: osmosis and diffusion.

Students will compare and contrast similarities and differences in the processes of osmosis and diffusion.

They will use a colorimetric test to demonstrate the movement of a solute across a semi-permeable membrane.

Students will then set up an environment likely to facilitate osmosis and gather data to determine whether or not osmosis may have occurred.

Osmosis and Diffusion Lab Manufacturer India, Osmosis and Diffusion Lab Exporters, Biological Equipment Osmosis and Diffusion Lab, Buy Osmosis and Diffusion Lab, Buy Osmosis and Diffusion Lab Online India, Didactic, Didactic Biological Equipment, Biological Equipment Exporters India, Biological Equipment Suppliers, Biological Equipment Manufacturer.

Contact JLab Export for your Educational School Science Lab Equipments. We are best school science equipments suppliers, school science kits, school science lab equipment exporter, school science lab equipment manufacturer, school science lab equipment supplier, school science lab equipment suppliers.
