# **Buzzing Magnets Set of 2**

#### Description

#### **Buzzing Magnets Set of 2**

- Buzzing Magnets Jumbo are two finely polished, high powered, oval shaped magnets made of hematite iron oxide (Fe2O3).
- Toss the magnets into the air and when they collide they will make a buzzing sound as they spin and vibrate together.
- Strong material, but not indestructible so do not drop onto a hard surface.
- Dimensions: 1.75 Inch (44.52 mm) Length x 0.61 Inch (15.5 mm) Width
- Measurements are approximate.
- Only available in pairs.
