

Product Code . JL-SE-9683

Polyethylene Pan

Description

Polyethylene Pan

For general student use in dissection.

Outside Dimensions:- 11-1/2 x 7-1/2.

High-Density Polyethylene Pan

Less expensive than aluminum

Won't rust, crack, or leak

Nonskid pads prevent movement on table

Bottom retains shape - does not become rounded with use

Not as deep - easy to perform routine dissections
