Graphing in the First Quadrant

Description

Graphing in the First Quadrant

If the 44 dominoes are placed correctly, open ends of those on the octomino tracks and those yet to be played can be paired.

Players match hiding places with ordered pairs - such as (2, 5) and (4, 3), building an octopus-like pattern outward from the octomino starting board.

Game is self checking.

Game variations make it possible to meet the needs of a wide range of students.
