Field Orienting Map Compass

Description

Field Orienting Map Compass

- Combination of precision and durability.
 - The accurate steel needle rotates on precision pivots.
 - The liquid filled chamber stabilizes the needle quickly for fast readings and also cushions against impacts.
 - The compass and the scale have luminous points.
 - The compass is mounted on a clear strong plastic base.
 - Base includes centimetres, inches, 1:50000, 1:25000, and m scales.
 - The base Compass has a declination correction scale.
 - The base also has an in-built 1 Inch (25mm) 4x magnifier, and 4 stencils for drawing 3 circles and 1 triangle.
 - Comes with a lanyard.
 - **Base Dimensions:**
 - 5.5 Inch (140mm) x 2.38 Inch (60mm)
 - **Compass Diameter:**
 - 1.75 Inch (45mm)
 - **Scale Graduations:**
 - 0 - 360 degrees x 2 degree increments
-
