

Product Code . JL-PLE-9890

Diode Unit

Description

Diode Unit

With silicon diode mounted on base as described.

Input – 24 V DC supply – 2 numbers (standard).

Output current – P-0R-24-20-S5 – 20 A, 24 V DC

Overload – 10% max

Drop – 0.65 V max DC at 20 A

Di-electric strength – 1 kV AC (between input/output to body)

Insulation resistance – 100 mega ohm @ 500 V DC min (between input/output to body)

Working temperature – 55°C ambient max

Indicators input power supply – 1 green LED for each power supply

Output power supply – 1 green LED for output

Conductor cross section – 0.20-4.0 mm² solid

0.20-2.5 mm² stranded AWG 24-12

Dimension (L x B x H) – 131 x 48 x 131 mm

Mounting - 35mm DIN rail

Weight – 1.2 kg approx
