

Product Code . JL-AE-9985

Wheel Loaders Electric Circuit Training Simulator

Description

Wheel Loaders Electric Circuit Training Simulator

Feature:-

An educational unit for understanding the components of the Electric Forklift electric system and training.

Is the best model to see operation state and location of components by making parts which aren't seen at an actual one open.

Effective to educate the troubleshooting and inspection theory, training.

Specification:-

Composition : ECU, Battery, operating lever, light system, horn, hydraulic lever, starter motor, battery connector, relay, digital meters, power DC 24V battery, 2 A meter, 2Vmeter

Electric circuit equipment using Hyundai Heavy machinery wheel loader

Size:- approx. 2,000 X 600 X 1,700 mm

Weight:- approx. 350 kg

Training Contents

Replacement of the Timing Belt and other various belts, Belt Tension Control.

How to replace Break Disk and Pad.

How to replace break oil and remove the air.

How to attach, detach the Cylinder Head.

How to attach, detach the Generator and Start Motor.
